Film: Tangled

Disney sprinkles its animated magic on the classic Grimm's fairy-tale Rapunzel in this energetic, CGI charmer. Sassy and fun, the comedy re-working centres on a princess who's been locked in an evil witch's tower since infancy. Not only is the now teenage Rapunzel extremely feisty, but she's also got this incredible, 70 feet of magical, golden hair: twin complications for handsome outlaw Flynn when he stumbles upon the girl's 'prison' and ends up her hostage. Curious about the outside world, she agrees to let the thief go if he takes her with him. So begins a visually delightful adventure, packed with action, laughs and brilliantly colourful characters, from an over-protective chameleon to a pair of vengeful thugs.
